

# PAIGE PAGADUAN

☎ 408-694-2195 ✉ [ppagaduan@ucsd.edu](mailto:ppagaduan@ucsd.edu) [linkedin.com/in/ppagaduan](https://www.linkedin.com/in/ppagaduan) [github.com/ppagaduan](https://github.com/ppagaduan)

Data Science graduate with 4+ years of Data Science experience across machine learning, cognitive science, & data analytics.  
Scientific knowledge spans data visualization & pipeline development. Toolkit experience spans Python & SQL.

## Education

### University of California, San Diego

La Jolla, California

*B.S. in Data Science, Minor in Cognitive Science*

*Sep. 2022 – March 2026*

- 3.53/4.0 GPA (Provost Honors)

## Relevant Coursework

- Data Structures and Algorithms
- Linear Algebra
- Programming and Basic Data Structures
- Theoretical Foundations of Data Science
- Introduction to Cloud Computing
- Introduction to Data Management

## Professional Experience

### San Diego Association of Governments (SANDAG)

Aug. 2025 – Present

*Data Science, Management, and Analytics Intern*

*Internship*

- Intern on the Data Science, Management, and Analytics team at SANDAG, a regional planning and transportation organization for San Diego county.
- Managing SANDAG's Open Data Portal and communicating with third-party vendors to host transportation data.

### Department of Neurosciences at UC San Diego

Sept. 2024 – March 2026

*SOL-INCA Lab Data Analyst*

*Part-Time*

- Participated in the Study of Latinos-Investigation of Neurocognitive Aging (SOL-INCA), the largest study of Latino neurocognitive health and aging to date.
- Utilized R and Stata to generate visualizations and conducted statistical analysis of longitudinal cognitive outcomes of study participants.
- **Publications:** Plasma ATN Biomarkers and brain measures across depressive symptom severity: Findings from the Study of Latinos-Investigation of Neurocognitive Aging (HCHS/SOL) (accepted for publication in Biological Psychiatry Journal)

### AskMargot

Aug. 2024 – Dec. 2024

*AI Studio Fellow*

*Remote Internship*

- Designed a new ML model to increase community engagement, job satisfaction, and placement success of travel nurses.
- Compiled techniques of unsupervised learning, deep learning, and neural networks with Python to match nurse profiles and review sentiment scores in travel placements.

## Projects

### 2026 Longitudinal Employer-Household Dynamics Partnership Hybrid Workshop

May 2026

- Identified priority levels for proposed transit routes in San Diego county by quantifying various demographic metrics and leveraging agglomerative clustering.
- Presented to U.S. Census Bureau and workshop participants.

### The Influence of IQ on the Brain's Activation in Schizophrenia — UCSD Capstone Project

March 2026

- Analyzed fMRI brain scans to understand the affects of demographics on neuron activation for auditory stimulation.

## Technical Skills

**Coding Languages:** Python, Java, HTML/CSS, JavaScript, SQL, R

**Developer Tools:** Visual Studio Code, AWS, Git, Figma, Stata, Jupyter, RStudio, Tyler Technologies

**Packages:** scikit-learn, Pandas, NumPy, matplotlib, TensorFlow, Keras, seabornplot, neuromaps, GeoPandas

## Leadership

### Association for Computing Machinery at UCSD

Fall 2022 – May 2026

*Vice President of Events*

*University of California, San Diego*

- Oversaw all 200+ yearly workshops and social events held between four different ACM communities, reaching 1200+ students. Facilitated communication between UCSD ASCE and the Jacobs Department of Engineering.

### Machine Learning and AI Fellow

May 2024 – May 2025

*Break Through Tech @ UCLA*

*Remote Internship*

- Selected from 3000+ applicants to join the Break Through Tech AI program by Cornell Tech, hosted at UCLA.
- Engaged in a 12-month long program, including Machine Learning coursework with Cornell faculty, experiential learning experiences and mentorship from industry professionals.
